

## Minute of Team 202113

Basic Information			
Date	2021.10.31	Location	Libray PJ14
Time	13:00	Secretary	Haonan CHEN
Chairpesron	Yifei SHAO		
Attendance			
Present Member	Yifei SHAO, Haonan CHEN, Zhihang ZHU, Yongjing QI, Yuke GAO		
Absent Member			
Content			
Theme	Detail		
Foreword	Before the meeting starts, Yifei SHAO and Yongjing QI have discussed about the prototype and there are two kinds of searching we need to further talk about.		
Prototype	Yifei and Yongjing come up with two types of searching method: <ul style="list-style-type: none"><li>Once the user finish choosing different filters, it will go to the exact page you want to go to. For example, there are 4 types of filter: School, Course, Grade and Module,</li></ul>		

	<p>if I want to learn something about FoSE, I need to choose FoSE in School filter and I press search, it will show the introduction page of FoSE.</p> <ul style="list-style-type: none"> <li>• The other method is once we complete choosing the filter, it will show a list of results, ranking in different priority.</li> </ul> <p>After discussion, we prefer the first one because the second method may be a little bit useless cause when the user is choosing filter, they already have a target search result, we may do not need to show some irrelevant results.</p> <p>Then, we discuss about the personal home page, Zhihang ZHU designed a home page like below:</p>
Ethics	<p>According to Dave, the ethics fully checklist still needs to be modified and we modify the checklist and have emailed to Matt to ask for more fb.</p>
Action points	<p>Yongjing QI, Yifei SHAO: Complete the initial prototype before the next formal meeting.</p>
