Theme	Detail
Problem discussion	The compile time is slow but acceptable
	It is ok that the staff pictures are not presented
	Considering the remaining time, it is better to focus on the main requirements instead of small problems
	Python covers functions to deal with html tag
	Cause the information in official website and module catalogue do not match, (for example, Developing Software Maintenance in Module catalogue and Software Maintenance in official website) so, a uncertainty search algorithm is needed if

Current Stage	possible to detect these differences The back-end API is designed and pass the test The CELE module pages are all completed and set up in front-end Error report page will be made in this week
Supervisor advice	Focus more on how to complete main requirements instead of small problems. Reflect on why not all requirements are met and justify how it can be solved in the final report Record how we reflect and gain in this GRP experience in the final report
After Meeting	Matt: will go through the GRP final report frame and give fb Everyone: Record all the problems met during the GRP process Yifei & Yongjing: Keep developing front-end program Zhihang & Haonan: Start testing the back-end and web crawl program Yuke: Go through the module mark rubric and list the main points
